

## **UAB “SIMEON” presentation**

UAB „Simeon“ is an international transport company specialising in transportation of ADR (dangerous) liquids and other non-food chemical products by land.

The core of the business is proceeded in Lithuania but international transportation especially delivery of goods with Tir Carnet's from Western Europe to Russia, Belarus, Ukraine and other CIS countries is expeditiously increasing.

UAB „Simeon“ is a Finnish capital company which 100% belongs to Finnish transport group “Kiitosimeon”. “Kiitosimeon” group also has its offices in Latvia and Estonia. The group employs about 400 people and has 170 sets- trucks and tanks that are in daily use.

37 people work for UAB Simeon in Lithuania, and 25 transport sets are used in daily operations. All transport units fulfil very strict requirements raised for ADR shipments transportation and we hold all necessary permissions required for this transportation process. GPS tracking systems are installed into all transport units, this enables us and our clients to keep track where the shipment is at the real time.

UAB “Simeon” started its activities in Lithuania in 1994 as “Transuotila”. The company started providing services to UAB “Neste Lietuva”. Now we work with such clients as “Neste Lietuva”, “Orlen Lietuva”, “Biofuture”, “Alexela”, “Volkswagen Russia”, “Eliokem”, “Bang & Bonsomer BY” and other. In 2009 we transported 250.000 tones of liquid products and made 14.000 t deliveries to our final customers.

Following the confirmed new company’s strategy to widen its activities in whole Europe, we made big investments in buying new equipment, such as teflon, aluminium and stainless steel coating tanks to transport chemical products. We hold all necessary permissions for ADR goods transportation and now part of ADR goods are transported with Finnish Tir Carnet’s from Western Europe to Russia, Belarus, Ukraine. At the moment it is possible to transport petrol, glycerine, oils and antifreeze to Russia and latex, bitumen emulsion and dissolvents to Belarus.

With professional managers and drivers team, with big specific requirements, experience and with only few years old transport fleet we expect to widen our business area and offer a reliable service to our customers and partners.
